Synopsis

Project Title: Burqa Shop Website

Developed By:

Javeriya Mujawar (2301)

Tuba Bagwan (2315)

Course: BCA III

Project Information:

The Burqa Shop Website is an e-commerce website that facilitates the sale of Islamic women's clothing, including Burqa, Abaya, Naqab, Hijab, and accessories. This platform aims to provide a seamless and convenient shopping experience for users. Users can browse products, add items to their cart, and place orders easily. The system also includes an admin panel for managing products, orders, and user queries efficiently.

Key Objectives:

- Provide an online shopping experience for Islamic women's clothing.
- Enable secure user registration & login.
- Allow easy product management for admins.
- Provide a smooth cart & checkout system.
- Improve accessibility by offering a responsive design for mobile and desktop users.
- Implement user-friendly navigation and search functionalities.

System Features:

User Features:

- Register/Login
- Browse Products & Categories
- Add to Cart & Checkout
- Place Orders
- Submit Queries

Admin Features:

- Manage Products (Add, Update, Delete)
- Process Orders
- Respond to User Queries
- Generate Sales Reports

Technologies used:

- Frontend: HTML, CSS, JavaScript
- Backend: PHP
- Database: MySQL
- Server: Apache XAMPP
